BADc 2017

BEST Architecture &
Design competition

IV EDITION

BEST Milano is very pleased to present the fourth edition of BADc - BEST Architecture & Design competition, the first competition for students organized by students.

One way to prove themselves., to get in touch with the world of competitions, which characterizes the architecture and design work environment. It is a way to experiment, design something, beyond the university laboratories. It is a way to analyze the themes that change every year the world of design.

changeMI

This fourth edition will address various issues discussed during the Salone del Mobile of this year.

- **The new sociality:** co-working places, dynamic and productive work environments, that create professional and personal synergies
- **The nomadic objects:** hybrids and flexible spaces between the housing, the leisure and the business, home, office, laboratory, combinations of analog and digital, networked, portable.
- **Reuse and Construction:** to reinvent and give new life, new features and new meanings to objects otherwise destined to abandonment or the landfill and share the works with the community

WHO AND WHAT

All students enrolled at the Politecnico di Milano can apply to the competition. Although it is a competition designed for students of the Faculty of Architecture and Design, that not preclude the participation for students from the Faculty of Engineering.

You can only participate at the competition in **groups of three** people.

- Each group can submit only one project.
- Participants may not be members of multiple groups.
- The authorship of idea and / or project is equally accredited to all components.

We ask students to design a minimal space (furniture) with these characteristics:

- the basic area must not be more than **3 square meters**, the height dimension is free.

- the material used for the construction is the **pallet** (1200mmx800mmx148mm). This basic module can be divided into several parts that can be cut and / or reassembled freely.
- it has to be **mobile** and **versatile**, that can move at various points of the university campus, and lends both inside and outside.
- it has to be **self-buildable**: possegga an elementary structure that allows anyone to make it happen once obtained the necessary material.

This minimum space should be inserted inside the Politecnico di Milano, in areas usually not exploited as corridors or open spaces cemented.

HOW AND WHEN

The competition is divided into two phases: a self-employment, in which the teams will define the concept of their project and a workshop, which will take place March 24 at the Politecnico di Milano, where teams will compete together.

To be enrolled in the competition each group will have to **fill the online form** with:

- Team name
- Component data
- Pdf containing 3 concept description tables in the format downloadable from the site.
- Description of the project max. 300 characters.

The three tables must be arranged in the following order:

1. Table of the concept presentation
2. Perspective view with dimensions
3. Environmental Section

The format of the tables can not be changed, under penalty of exclusion.

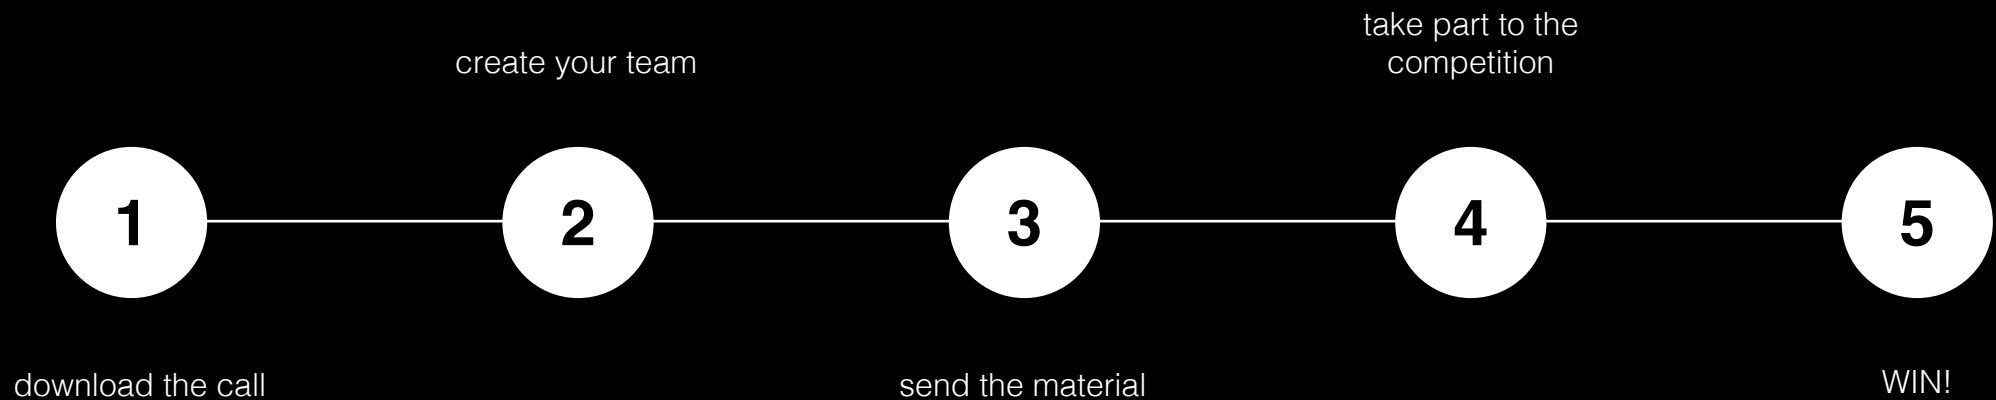

Each group can choose freely the graphic technique to make the tables, can be both traditional and digital.

the form must be completed no later than **23:59** on **23th March**. Nevertheless registrations will still be closed once enrolled **90 participants**.

We ask students to submit materials as soon as possible.

The day of the competition on March 24 will focus on the implementation of the physical model in 1:10 scale using only the material provided at the beginning of the day.

The competition will engage the whole day, during which will be provided free lunch and two coffee breaks.

1. Download the call

Download from our website the call and layout of the tables

2. Create your team

Create your team and realize your concept

3. Send the material

Send the form with the required documents no later than **23:59** on **23th March**. Please do not wait until the last minute, because the inscriptions will still be closed once enrolled **90 participants**.

4. Take part to the competition and build your model

The March 24 teams entered will compete in the realization of the **1:10 scale model** of their concept. Warning! You may only use the material provided.

5. WIN!

At the end of the day the jury will decide the three best projects.

WINNERS AND PRIZES

The three best projects selected by the jury will be awarded:

1st PRIZE: 3 Album THE WALL made with the revolutionary paper for the world illustration, graffiti and design offered by Canson; 3 set24 markers Aqua Brush Duo and 3 set 12 graded pencils Art Design offered by LYRA.

2nd PRIZE: 3 annual subscriptions to digital CASABELLA magazine.

3rd PRIZE: 3 notebooks A6 Moleskine dotted grid.

Moreover, all the participants in the competition will be entitled to a certificate of participation downloadable from our website.

FAQ

None of my friends want to apply with me, can I sign up as an individual?

No. We only accept teams of three people.

Where do I find the registration form and the layout of the tables?

On our web site to www.bestmilano.it/it/badc17it/badc17-registrazione/ page.

What size should be the pallet?

1200mmx800mmx148mm. At the end of the call you will find a technical drawing.

I can mix your pallet wood with other materials?

No. Unless that they are required for the construction (screws, plates, nails, ecct) and light.

Can I paint my project?

Yes. We ask you to indicate the color with PANTONE code.

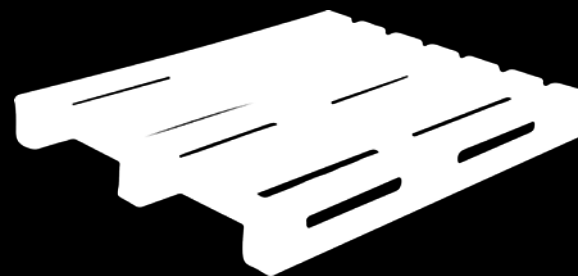

I have to use a single pallet?

No. The number of pallets is at the discretion of the team, but you need to tell us how much pallets you decide to use.

I have allergies / I follow a special diet, you will take into account for the meals served during the day?

We provide a vegetarian alternative. In the other cases we ask participants to take lunch on their own.

Other questions? Come to our meeting the 13th of March in Educafé (Campus Leonardo) at 19.00 or write an email to badc17@bestmilano.it
